Suite 1139  
Punta Gorda, FL 33950

To Don & Mary Teets:

We just want to let your future customers know that we were extremely pleased with the two projects you did for us. The first was a master bath revision where we took the bathroom down to the studs and all the work was done in an exemplary manner. Your sub-contractors performed all their work extremely well and on time. One thing that stood out for us was how accommodating they were to our every day life and how clean they kept their work area as they were completing their work. The end result was perfect.

Both of you were extremely responsive to all of our calls and when unplanned events occurred. You kept us on track. Your estimates held and we felt they were reasonable.

We hired you again to do the renovation of our second bathroom and tile our living area. Again, we were very pleased with your ability to maintain the timeline and get the work done. Again, the sub-contractors you used were skilled, trustworthy, clean and productive. The end result was exactly what we wanted.

Both of you are extremely responsive and we enjoyed our working relationship with you. If we do any additional work to our home, you will be the first people we call. Thank you.

Sincerely,

A handwritten signature in black ink that reads "Robin Bayne". The signature is fluid and cursive.
